SuperOffice®

SuperOffice CRM Dage 2018

Vejle, April 12, 2018

Our Agenda

Nice To Meet You!

Short introduction on our company who are synchronizing appointments already for 15 years

Product Portfolio

The various InfoBridge products available to Super Charge SuperOffice

InfoBridge Software b.v.

Who Are We?

Visma ISV

Our cooperation started in 2009. InfoBridge replaced the calendar syncs for Visma Business & Visma CRM and developed additional tools for Visma Business.

SuperOffice ISV

Our cooperation started in 2003. InfoBridge is the preferred supplier for calendar and data integration tools. Our development teams are integrated.

"InfoBridge is a Dutch software developer company with a focus on complex international business solutions with a high return on investment."

Nebula DataBridge

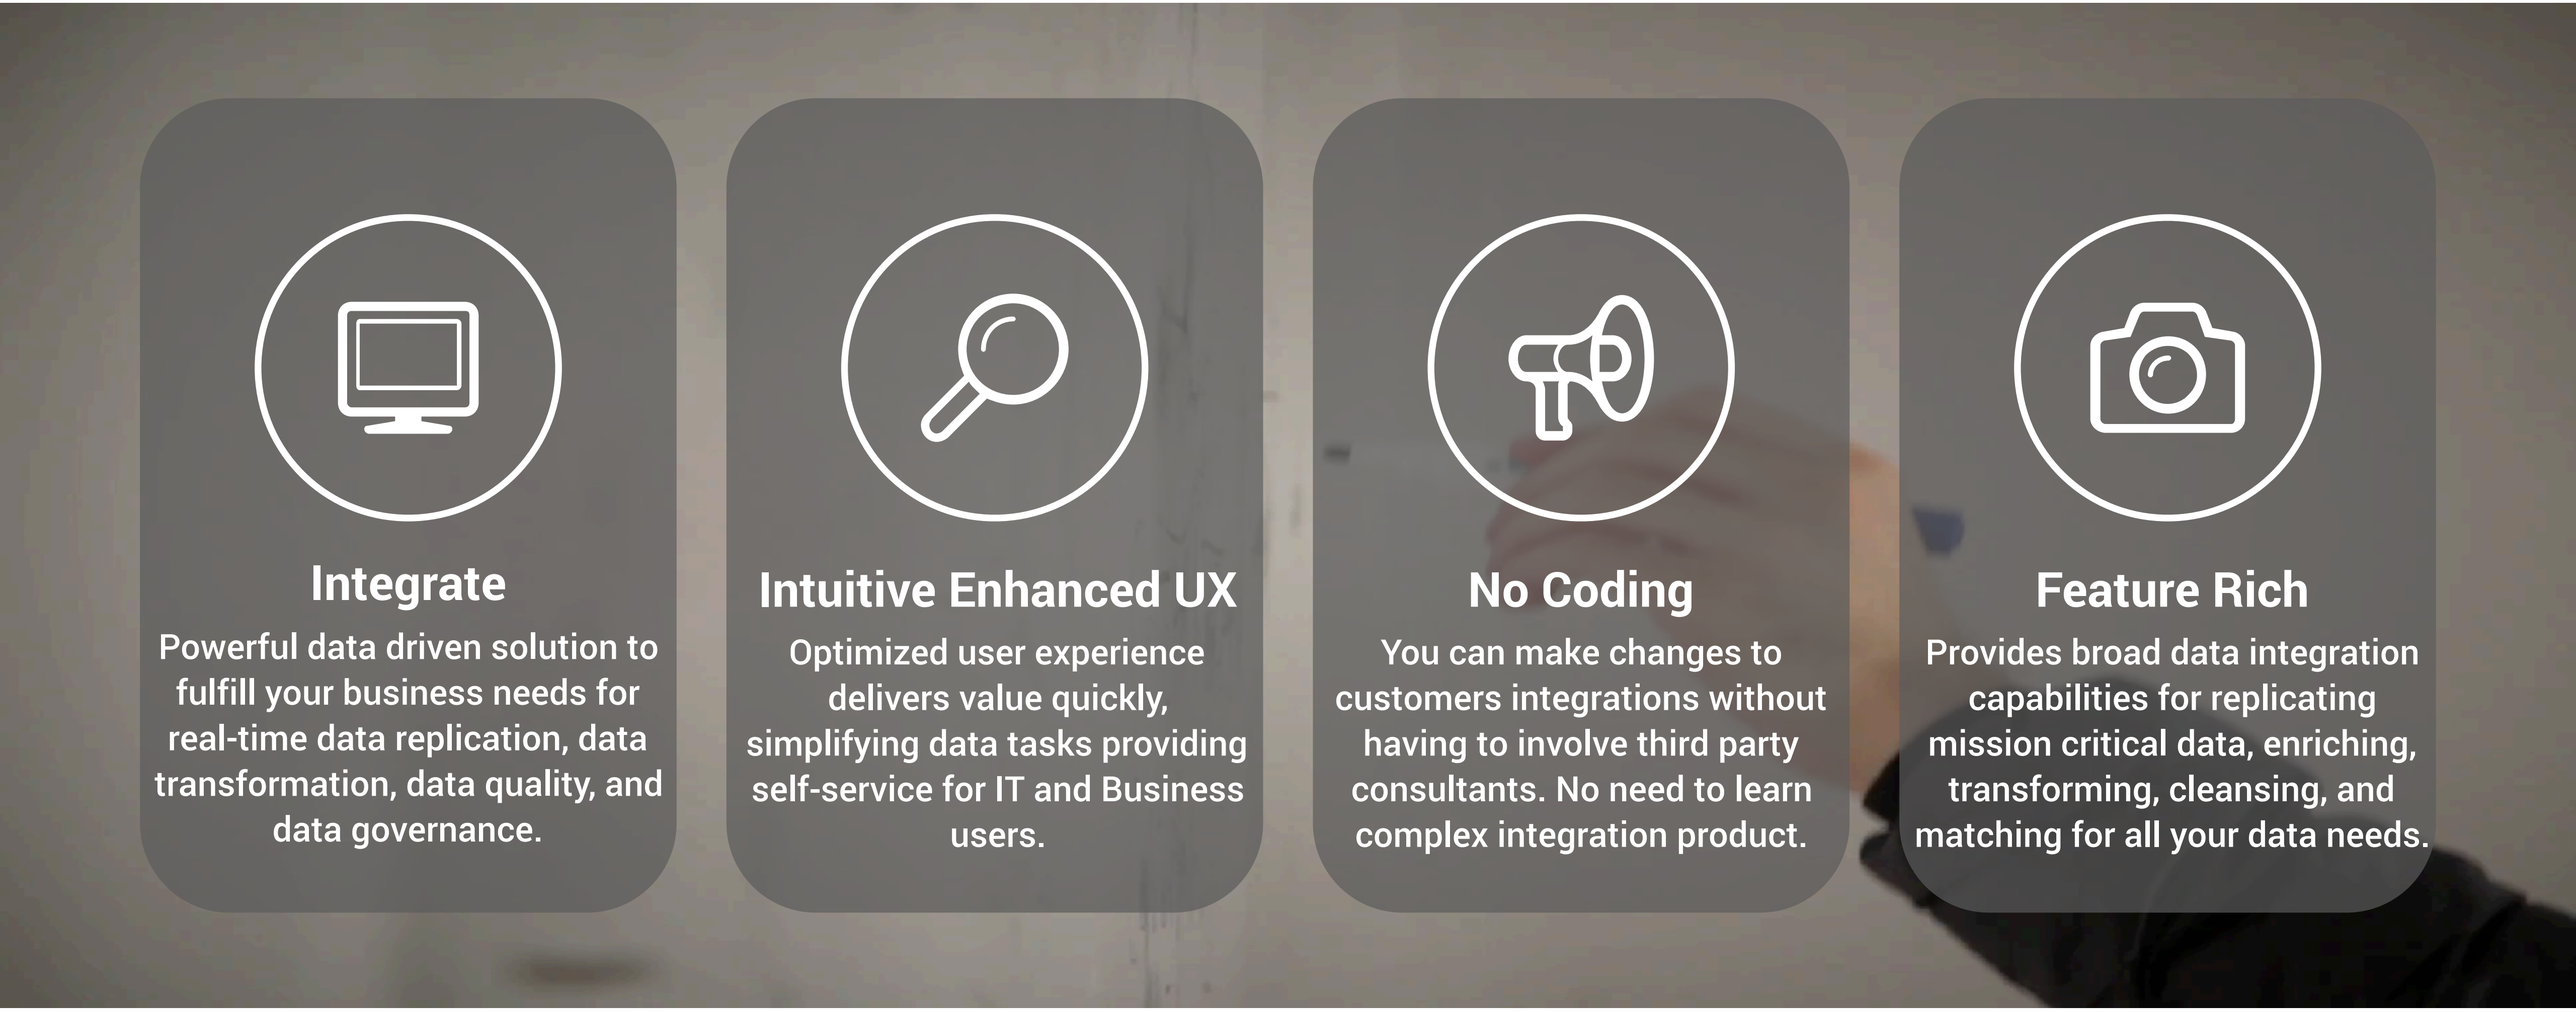
SuperOffice integration platform



Integrate

Powerful data driven solution to fulfill your business needs for real-time data replication, data transformation, data quality, and data governance.

Intuitive Enhanced UX

Optimized user experience delivers value quickly, simplifying data tasks providing self-service for IT and Business users.

No Coding

You can make changes to customers integrations without having to involve third party consultants. No need to learn complex integration product.

Feature Rich

Provides broad data integration capabilities for replicating mission critical data, enriching, transforming, cleansing, and matching for all your data needs.

Highlighted Features

Nebula Databridge

Import and Export

All major SuperOffice entities are supported, company, contact, sales, project , project members, activities, interests, stakeholders, products etc.

Defaults & Transformations

While importing and exporting default values can be specified or data can be transformed to your need (e.g. split, merge etc)

De-duplication

Various de-duplication possibilities on several fields including user defined fields

Field selector

Imports and exports can be easily configured by typing field names

Trigger and Event based

Instant update SuperOffice or external information when data gets changed

No Coding!

All can be set-up by using intuitive wizards which guides the complete integration setup

Cloud & FTP

Data can be read or written to various cloud storage providers or (secure) FTP servers

Cross Platform

DataBridge is available for SuperOffice CRM Online and SuperOffice Windows
